

FRESH AIR GRILL

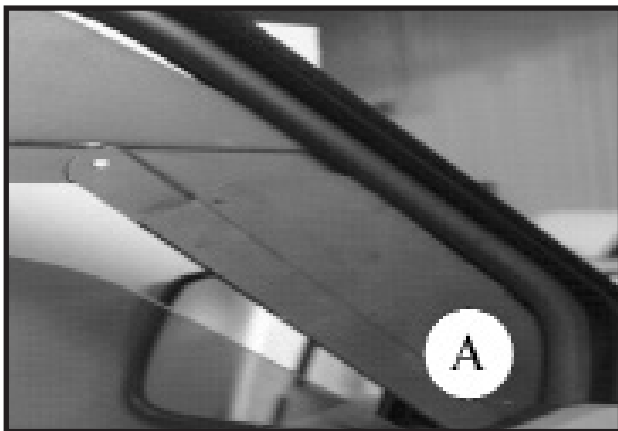

T4 1990-2003

JK part numbers: J11988

FITTING GUIDE

Note: This grill can be used on vans with electric windows, but the grill has to be correctly seated. If not, the window will never close.

1. First, fold out the grill to the shape of the window. Insert section (A) into the window down by the wing mirror between the seal. Continue until the top edge of the grill is fixed in.
2. Wind up the window, making sure the glass slides into the groove on the grill, starting down the side of the mirror first, then the top. The grill will find its own position within the window. Stop when the grill is fully home and all the glass has entered the groove.

N.B. Whilst every attempt is made to ensure that these instructions are as accurate and clear as possible, we cannot be held responsible for misinterpretation of these instructions or for any subsequent accident or damage caused through mis-fitted parts.
