

Get the go-when-you-feel-like-it feeling

with a Devon Motor Caravan

The holiday makers

(Devon motor caravans make every weekend a holiday)

The Devon Sunlander on pastel white/chianti red Microbus

With a Devon Motor Caravan you can take the whole family anywhere, anytime, just when you feel like it.

You come and go as you wish. And remember you have no hotel accommodation to pay for.

Devon build their conversions on both Volkswagen's Microbus and Kombi (adding their own Devon craftsmanship to the already well known quality).

So you can start to suit your pocket even before you decide which of the two conversions you will prefer.

You can therefore choose between the Sunlander or the Moonraker on VW Microbus or Kombi.

Both conversions provide comprehensive facilities. You have everything you need to be your own boss, and many optional accessories, such as elevating roof with the two extra bunks.

The Sunlander or the Moonraker on Microbus come in white or two tone ; white/niagara blue, white/sierra yellow or white/chianti red.

The Sunlander on brilliant blue Kombi

The lower priced Kombi, basically similar to the Microbus, is available in white, brilliant blue or chianti red. Devon Motor Caravans are in a class of their own because the conversion work is the best you can buy. Finest quality timber is used throughout and the whole construction is hand-finished. It's worth the extra to know the journey's end will be as comfortable as the journey itself. And with any model you can have such extras as cab centre seat, retractable side step, window fly screens, completely enclosable side awning and insulated elevating roof with two full length adult bunks. Shown below is the roof in its raised position.

The Sunlander on pastel white Microbus

Get the  go-when-

you-feel-like-it feeling.

Reversible seating facing rearward for dining.

Compact pull-through drawers come from behind centre seat cushions. Elevating roof, with the single berths stowed away, provides full headroom even for a six-footer. Shown here is the Sunlander Microbus conversion.

Large and comfortable reversible seating is seen here facing forward for travelling.

The two extra full length adult bunks in position when roof is elevated.

The handy hideaway in the Sunlander Kombi.

Rear double berth for children.

Pull-through drawers extended to rear. Showing children's bunk and deep wardrobe.

All the standard VW features, such as dished steering wheel and easy-to-see instruments, that add up to more relaxed driving.

The air cooled, 1.6 litre, 4 cylinder, 57 bhp VW engine with low maximum revs and special oil cooler for speed without strain gives you 27 mpg which is real economy.

The driver's seat, adjustable to 9 positions, provides constant comfort. A heater is a standard fitting and the extra-wide screen and air-flow ventilation give a feeling of freedom the journey.

VW include many special features to make driving a very special pleasure.

ulated food store, as fitted

The seating arrangement is quickly adapted to make two large single beds with the small double undisturbed at the rear. Add an elevating roof and the whole snug interior accommodates four adults and two children. (Sunlander on Kombi).

Simply remove plastic cover and the cooker is ready for use with two burners and compact low level grill. (Sunlander).

In the Moonraker the cooker has extra storage space and windshield. The convenient swing hinge mounting will be appreciated for cooking 'alfresco' and becomes perfectly situated for use when outside awning is fitted.

The comfortable children's double bunk, table layout and conveniently stored cooker in the Moonraker on Microbus.

The compact sink, cool cupboard and crockery storage unit in the Moonraker.

Extend the rear berth and it becomes an adult double.

Super-soft upholstery, combined with superb VW suspension, guarantee a smooth ride across the roughest terrain. Front disc brakes provide extra safe braking power.

Little things mean a lot, so they are provided in the form of vanity mirrors, safety door locks, coat hooks, and sunvisors.

The advantages of a completely enclosable side awning need no explanation. Just one of the many available extras.
